The Governor's recommendations transfer \$15,000,000 one-time and \$2,000,000 ongoing to the Economic Revitalization & Investment Fund for affordable housing initiatives. The Governor's recommendations transfer \$5,071,000 and -\$5,071,000 one-time to the Workforce Development Restricted Account. While this fund is shown under DWS, funds from the restricted account could be appropriated to DWS and other agencies identified in Utah Code 13-1-14. These restricted account transfers are not shown in the tables above because they are not part of the Operating and Capital Budget.

# APPENDIX E:

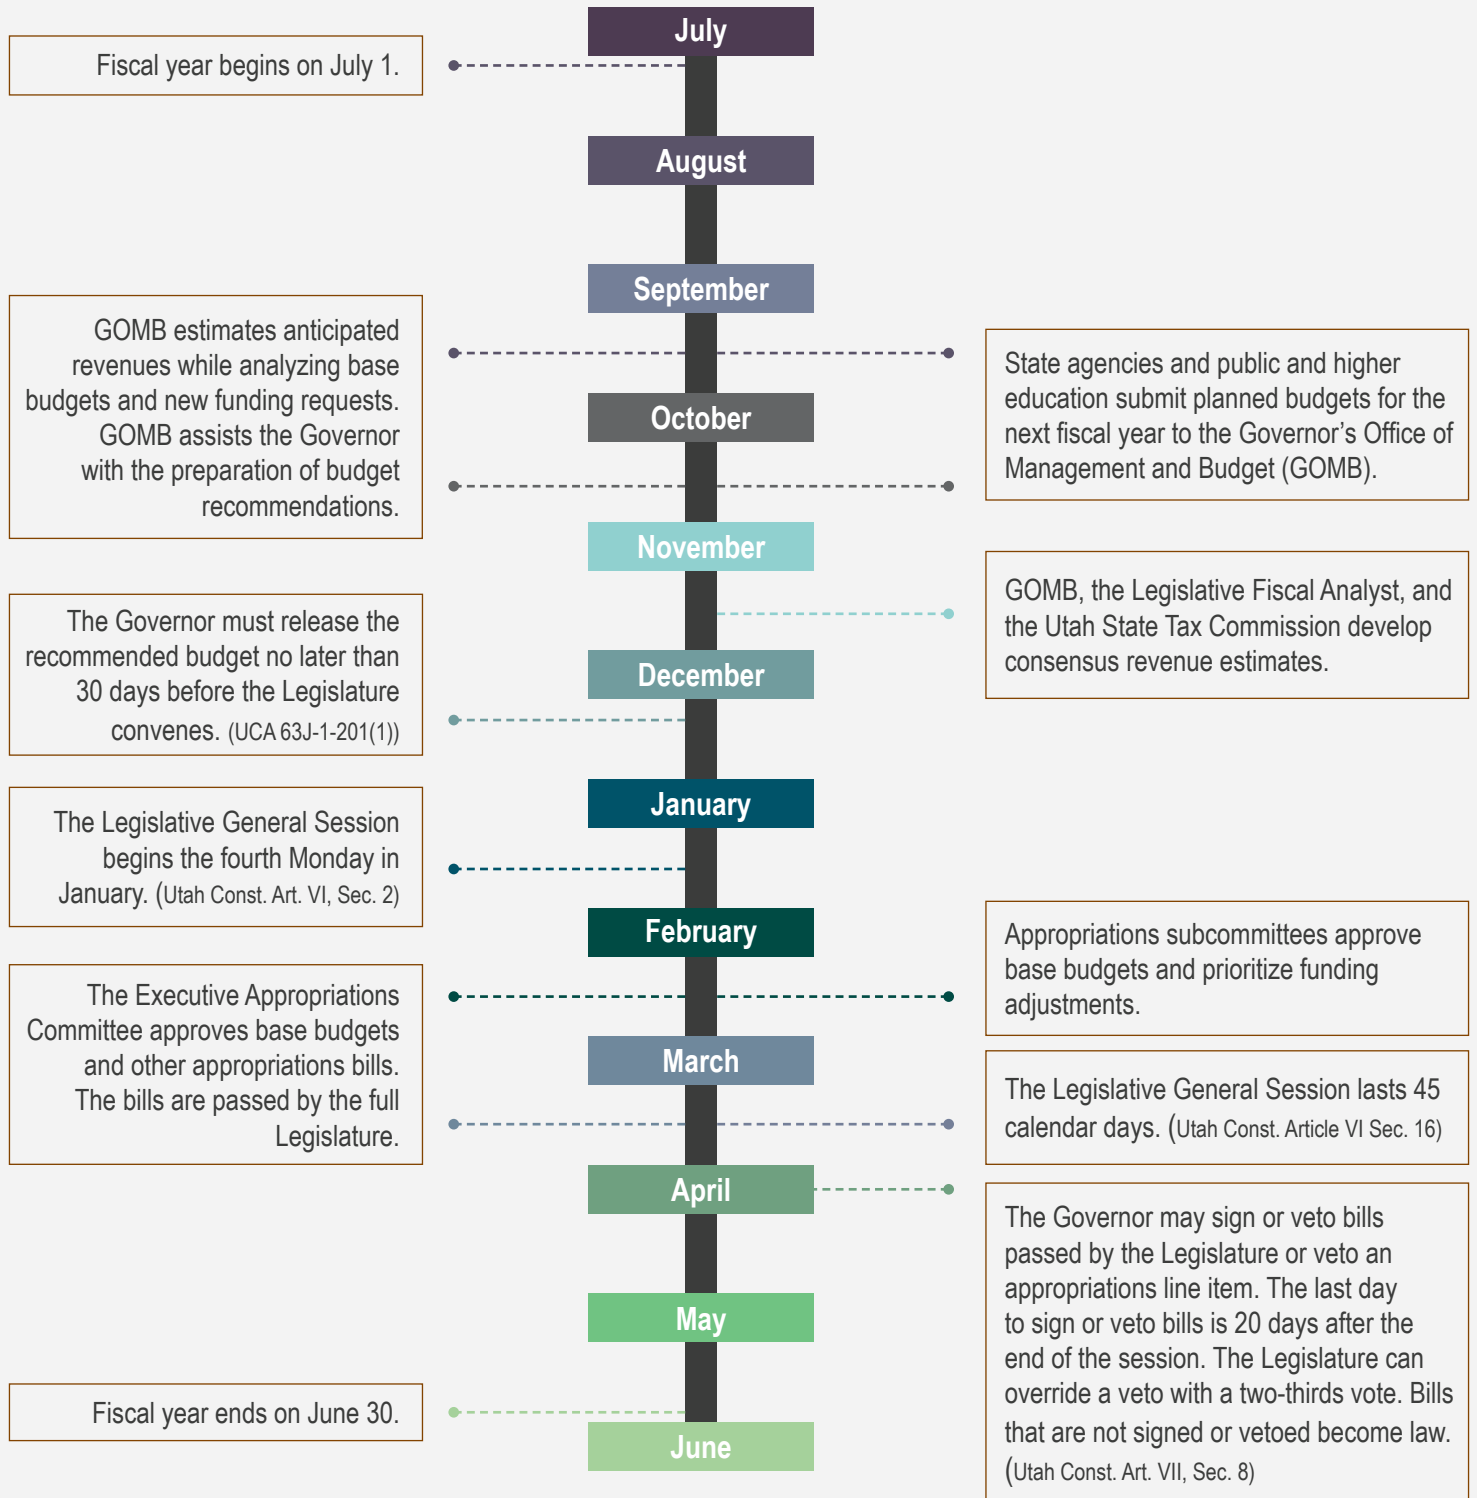

## ABOUT THE STATE BUDGET

# BUDGET METHODOLOGY

The State of Utah's fiscal year runs from July 1 to June 30. The fiscal year is commonly referred to using the later of the two calendar years. For example, fiscal year 2019-20 is sometimes referred to as fiscal year 2020 (or FY 2020). See Figure 1 for a timeline of the typical budget process.

**Figure 1: State of Utah Budget Process**

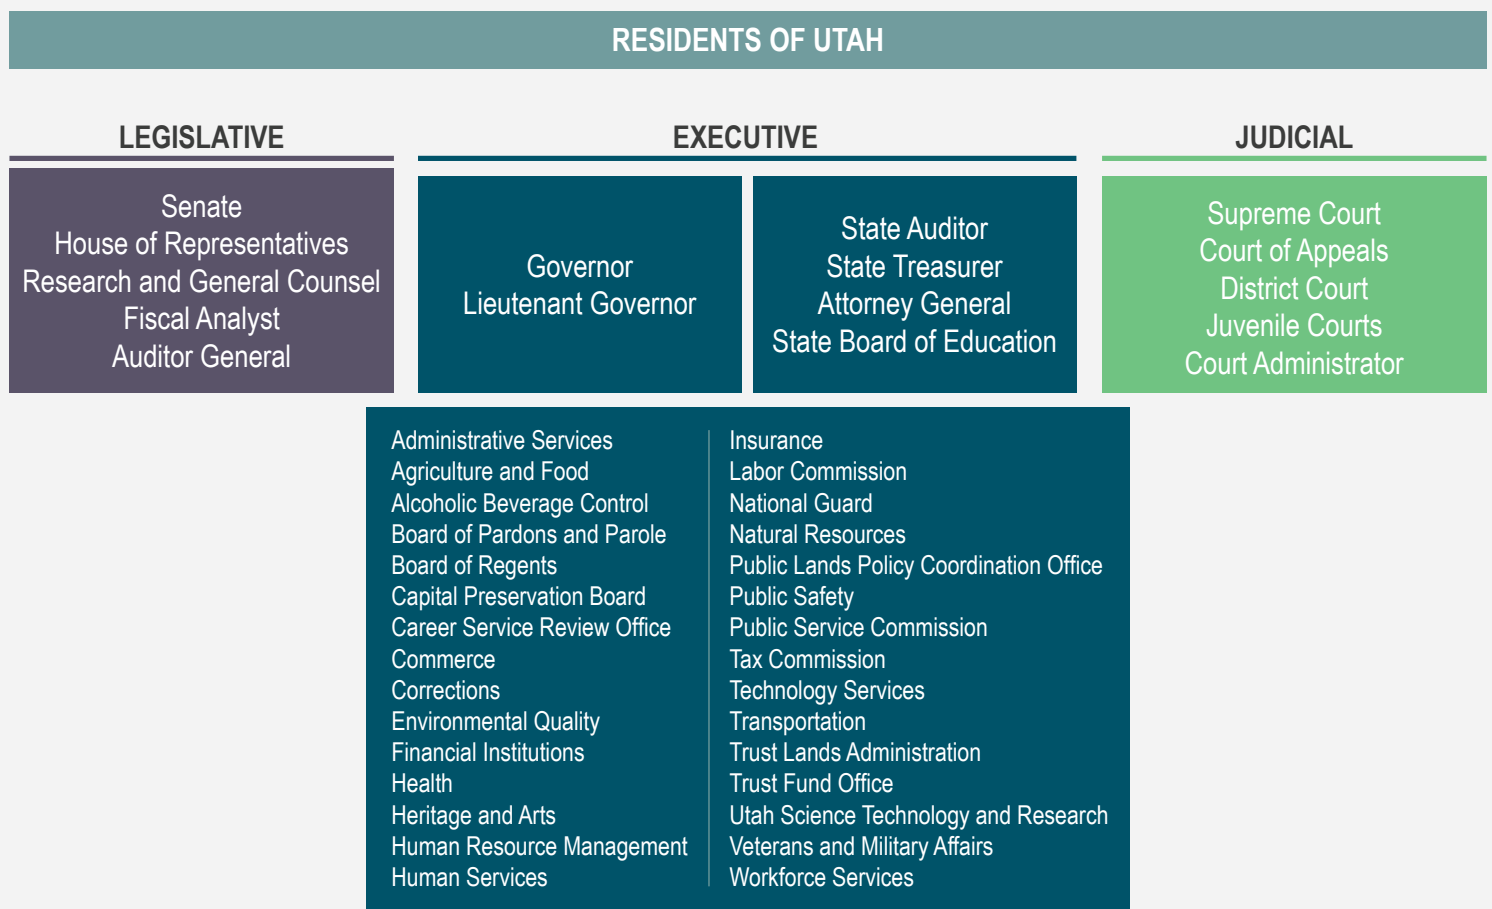

## Revenue Forecast

The Governor's Office of Management and Budget (GOMB), Office of the Legislative Fiscal Analyst, and the Utah State Tax Commission gather and analyze revenue collection data on a monthly basis. In November of each year, the Governor's Office of Management and Budget, the Office of the Legislative Fiscal Analyst, and the Utah State Tax Commission revise the state's revenue forecast and develop a new consensus revenue forecast for the upcoming fiscal year. The Governor's budget recommendations are based on this forecast.

## Governor's Budget Recommendations

Each year, officials from public education, higher education, and state agencies submit (a) planned expenditures for their base budget and (b) budget change requests to the Governor's Office of Management and Budget. An organizational chart of state agencies is shown in Figure 2. Common budget requests are costs associated with population growth (more students, more inmates, etc.), inflationary increases, and increased costs associated with federal mandates.

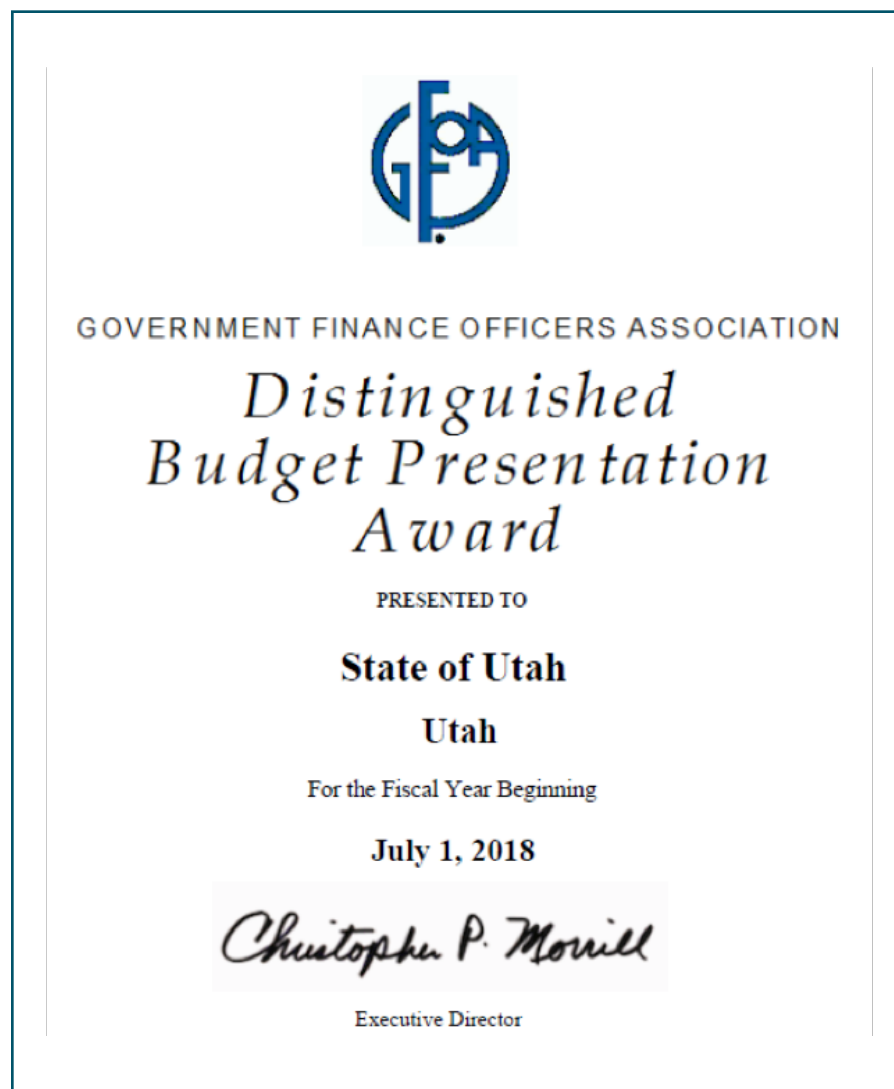

**Figure 2: State of Utah Organization Chart**

GOMB estimates anticipated revenues, analyzes both base budgets and the new budget requests, and assists the Governor in preparing final budget recommendations. The Governor's budget recommendations are summarized in the Governor's Budget Recommendation Book. The Governor delivers his budget message and transmits his budget recommendations to the Legislature through the Legislature's staff budget office, the Office of the Legislative Fiscal Analyst (LFA).

The Government Finance Officers Association of the United States and Canada (GFOA) presented a Distinguished Budget Presentation Award to the State of Utah for its Annual Budget for the fiscal year beginning July 1, 2018. In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as a financial plan, as an operations guide, and as a communications device.

This award is valid for a period of one year only. We believe our current budget continues to conform to the program requirements, and we are submitting it to GFOA to determine eligibility for another award.

## Legislative Enactment

To enact law, including a budget bill, the Legislature must pass an identical bill in both the House of Representatives and the Senate.

Utah is unique in that the Appropriations Committee is comprised of the entire Legislature. The Appropriations Committee is divided into joint House and Senate appropriations subcommittees, by topic (such as Public Education, Higher Education, Transportation, Social Services, etc.). After the LFA receives the Governor's budget recommendations, it analyzes the recommendations and prepares its own recommendations for the Legislature and its appropriation subcommittees.

The appropriation subcommittees analyze the budgets within their assigned topic area and submit their final recommendations to the Executive Appropriations Committee (EAC). The Executive Appropriations Committee receives the recommendations from the joint appropriations subcommittees, makes final budgetary decisions to balance the budget, and directs the LFA to prepare appropriations bills. The appropriations bills (there are usually multiple bills) are debated and the House of Representatives and the Senate pass the budget bills.

## Budget Enactment & Implementation

After the Legislature passes the budget bills, the Governor decides whether or not to sign the bills. Once a bill is signed by the Governor, it goes into effect on the date specified in the bill. State agencies use the funding provided to them in the budget to carry out their responsibilities.

The LFA annually prepares an appropriations report that summarizes the actual enacted budget. The latest available report, published following the 2018 General Session is found at

<https://le.utah.gov/interim/2018/pdf/00002604.pdf>

Details on agency budgets, missions, and programs are available in the LFAs Compendium of Budget Information (COBI) which can be accessed at

GOMB publishes additional budget information at

## Other Resources

The State of Utah's Annual Continuing Disclosure Memorandum provides details on the state's outstanding General Obligation and Revenue Bonds, including schedules of principal and interest payments. The latest disclosure is available on the Utah State Treasurer's website at

The State's Comprehensive Annual Financial Report (CAFR), is the audited financial statement that reports the state's financial position and results of operations, as well as certain demographic and statistical information. The CAFR, which is published by State's Department of Administrative Services, Division of Finance, is available on the Utah State Treasurer's website at
